

Cogito Announce formation of Cogito Software North America, Inc.

The continued success and increasing demand for Cogito software have justified the formation of a Cogito subsidiary in America. The company is based in Boston, Massachusetts and is called Cogito Software North America, Inc.

Cogito NA is a wholly owned subsidiary of Cogito Ltd, a UK based company founded in 1989 and now celebrating over 20 years of bringing world-class tools & utilities to IBM DB2® and CA IDMS™ users.

Cogito is one of the leading 3rd party tools providers for DB2® and CA IDMS™ installations worldwide. Its tools are in use at many of the world's largest IBM mainframe customers. Indeed, one of its users is ranked, according to the [Winter Corporations](#) survey of very large databases, as the number two in all of the OLTP databases surveyed on any platform.

Cogito NA will be taking over the marketing and technical support roles in the United States and Canada previously performed by Helios & Matheson (HMNA).

We would like to reassure our customers with existing support contracts with HMNA that they will continue to receive the same high level of service through the remainder of the contract period directly from Cogito. Future support agreements will be renewed directly with Cogito NA. As customers presently deal directly with Cogito personnel for technical support issues, the transition will be seamless.

We would like to thank all of our future and existing customers for their continued enthusiasm for our products.

For Technical Support contact: support@CogitoNA.com
For Sales & Marketing contact: sales@CogitoNA.com

If you have any other questions or concerns, please email info@CogitoNA.com or telephone 1-(978)-703-1022
